

Table of Contents

CHAPTER 1. THE FUNDAMENTALS OF BLOCKCHAIN TECHNOLOGY

- § 1:1 Summary of important points
- § 1:2 The basics: What is a blockchain, and how does it work?
- § 1:3 The basics expanded
- § 1:4 Application of cryptographic solutions to control ownership of digital assets
- § 1:5 Transactions and blocks
- § 1:6 Incentive structures: Proof-of-Work (Mining) vs. Proof-of-Stake
- § 1:7 Distinctions between permissioned and non-permissioned blockchains
- § 1:8 The issue of anonymity or lack thereof
- § 1:9 Wallets

CHAPTER 2. SMART CONTRACTS

- § 2:1 Summary of important points
- § 2:2 Smart contracts—Basics
- § 2:3 Terminology
- § 2:4 Basic mechanics
- § 2:5 —Programming smart contracts
- § 2:6 —Sidechains
- § 2:7 Smart contract use cases
- § 2:8 —Financial Industry
- § 2:9 —Legal Industry
- § 2:10 —Accounting Industry
- § 2:11 —Predictive and Commodity Markets (Auger)
- § 2:12 —Supply Chain Management
- § 2:13 —Real Estate Industry
- § 2:14 —Healthcare
- § 2:15 —Private Wealth and Estate Planning
- § 2:16 —Governmental Matters
- § 2:17 —Internet of Things
- § 2:18 Smart contracts and legal issues
- § 2:19 —Choice of law and cross-border considerations
- § 2:20 —Is code law?
- § 2:21 —Legal issues regarding electronic signatures and notarization

- § 2:22 — —The Electronic Signatures in Global and National Commerce Act
- § 2:23 — —Uniform Electronic Transaction Act
- § 2:24 — —Uniform Real Property Electronic Recording Act
- § 2:25 Smart contracts, regulations, and policies
- § 2:26 —Money transfer licensing
- § 2:27 —Anti-Money Laundering (AML) and Know Your Customer (KYC) considerations
- § 2:28 —A tool to combat fraud and corruption
- § 2:29 —Scope of CFTC's jurisdiction over prediction markets
- § 2:30 Smart contracts: Where we stand today

CHAPTER 3. BLOCKCHAIN PROTOCOLS

- § 3:1 Summary of important points:
- § 3:2 Existing protocols
- § 3:3 —Bitcoin
- § 3:4 —Ethereum
- § 3:5 —Ripple Consensus Network
- § 3:6 —Hyperledger
- § 3:7 —R3's Corda
- § 3:8 —Symbiont Distributed Ledger
- § 3:9 Existing Protocols—Tendermint
- § 3:10 —Digital Asset Holdings
- § 3:11 Existing protocols—Rubix (Deloitte) and Eris Industries, Ltd.
- § 3:12 Determining how blockchain technology can help your business or firm
- § 3:13 Considerations for determining the blockchain protocol best for your business or firm
- § 3:14 Developing a strategy to integrate blockchain technology into your business or firm

CHAPTER 4. DECENTRALIZED AUTONOMOUS ORGANIZATIONS (DAOS)

- § 4:1 Summary of important points
- § 4:2 Business organizations reinvented: The fundamentals of DAOs
- § 4:3 Where do DAO token holders fit?
- § 4:4 Capitalization structures
- § 4:5 SEC and securities issues
- § 4:6 Transactions secured by DAO tokens

TABLE OF CONTENTS

- § 4:7 Taxation
- § 4:8 Other areas impacting DAOs

**CHAPTER 5. KEY MANAGEMENT FOR
BUSINESSES AND PROFESSIONAL
FIRMS**

- § 5:1 Summary of important points
- § 5:2 Public Key Infrastructure
- § 5:3 Signing a transaction
- § 5:4 Multi-sig systems for enhanced protection
- § 5:5 Storing private keys (cold versus online storage)
- § 5:6 Managing access to private keys within an enterprise

**CHAPTER 6. DIGITAL IDENTIFICATION
ON THE BLOCKCHAIN**

- § 6:1 Summary of important points
- § 6:2 Digital blockchain based identification and reputation models
- § 6:3 Leveraging digital identification to reduce regulatory compliance costs
- § 6:4 Control over identification
- § 6:5 Interoperability
- § 6:6 Certifications and digital assets
- § 6:7 Challenges

**CHAPTER 7. RELATED TECHNOLOGIES
THAT COMPLEMENT BLOCKCHAIN
TECHNOLOGY**

- § 7:1 Summary of important points
- § 7:2 Interplanetary file system (IPFS) and file storage
- § 7:3 The Onion Relay (TOR)
- § 7:4 New microservices with built-in micropayment rails
- § 7:5 The cloud: Blockchain-as-a-service
- § 7:6 —Microsoft Azure
- § 7:7 —IBM Bluemix
- § 7:8 —Amazon Web Services (AWS)

**CHAPTER 8. GENERAL POLICY
CONSIDERATIONS FOR FUTURE
REGULATIONS**

- § 8:1 Summary of important points

- § 8:2 Implementing and enabling legislation
- § 8:3 Balancing regulation

CHAPTER 9. CONCLUSION AND THOUGHTS ABOUT THE FUTURE

- § 9:1 Summary of important points
- § 9:2 Don't panic, but start planning
- § 9:3 Where does all this leave businesses and
professions

APPENDICES

- Glossary Blockchain Terminology
- Appendix A. Uniform Electronic Transactions Act (1999)
- Appendix B. Electronic Signatures in Global and
 National Commerce Act
- Appendix C. N.Y. BitLicense
