Case preparation and presentation

Your secure and collaborative end-to-end evidence management solution

Streamlined digital process

Today's courts need an evidence management solution that supports digital reform, case management system integration and handles ever-growing amounts of multimedia evidence.

Meet your comprehensive platform for sharing evidence between justice agencies and lawyers for case preparation and courtroom presentation.

Take back control of your digital evidence

Accelerate and support digital reform

Rely on a single source of evidence that all parties collaborate on to facilitate effective hearings.

Empower access to justice for parties

Upload evidence via email or SMS, working alongside any video conferencing solution used by the court.

Collaborate seamlessly with multimedia evidence

Integrates with existing digital evidence systems to share, collaborate and present evidence across a range of multimedia.
